

# THE WRANGELL SENTINEL

VOL. XVIII. NO. 16

WRANGELL, ALASKA, THURSDAY, APRIL 10, 1919

PRICE TEN CENTS

## CABLE NEWS

**KANSAS CITY**—A tornado swept through portion of Texas killing 172 persons and injuring more than 400.

**SEATTLE**—The Jefferson will sail north at 9 o'clock tomorrow morning with 222 passengers, including crews for Tenakee, Tee Harbor, Auk Harbor and Quadra. Passengers for Wrangell are: Capt. S. C. Barrington, S. R. Jarvis, C. E. Showalter, Mrs. O. R. Stumpf, Fred Johnson.

**PARIS**—President Wilson prior to the morning session expressed the hope that the peace agreement would be ready in two days.

**PARIS**—Lloyd George leaves for London Monday for the purpose of addressing parliament.

**WASHINGTON**—The Government has made inquiry of Japan regarding the recent clash between Japanese and American soldiers at Tientsin, but has received no explanation in answer.

**MANILA**—The Filipino people themselves have no fear of Japan absorbing their islands after their independence has been granted. Manuel Quezon, president of the Filipino senate, declared today.

**PARIS**—It is probable that the Kaiser will be tried in Belgium.

**PARIS**—In addition to the first indemnity payment by Germany of 25 billion francs the Inter-Allied commission will assess the balance to be paid over a period of 30 years.

**WASHINGTON**—White House advice from the President indicate that good progress is being made at today's session of the conference.

**BERLIN**—A Munich dispatch says that diplomatic relations have been established between the Bavarian and Russian soviet governments.

**PARIS**—While Wilson insisted on a closer adherence to his fourteen points and claimed Clemenceau sought German treasury without warrant, nevertheless the tension regarding the peace conference, which has been on the verge of a collapse, has been greatly reduced. The most difficult problems have been solved.

**BERLIN**—The Achtehrblatt newspaper this afternoon says that an intensified siege has been proclaimed in Munich and that the founders of the Soviet government of Bavaria are now quarreling among themselves.

**MUNICH, Bavaria**—The police have discovered a plot to steal army goods valued at 11,000,000 marks. Twenty four persons have been placed under arrest.

**COPENHAGEN**—With the Soviets government firmly established in Munich, the Bavarian situation is critical, according to advice received here. The socialist government has been forced to retire to Nuremberg.

**COPENHAGEN**—A Berlin despatch says that doctors Herz and Hauffenburg, Spartan leaders, have mastered the cities of Hamburg and Bremen and the intervening territory and have declared it a Soviet republic.

**WASHINGTON, D. C.**—It is believed here that President Wilson will sail from France about May 1, and that he will have a satisfactory peace treaty in his pocket.

**BOMBAY, India**—The Mohammedans all over India are protesting to the British Government here, against the action of the Allies in proposing to take away the city of Constantinople from the Turks.

**PARIS**—A high British official stated authoritatively that "peace was practically completed. It is such a peace as both the Bolsheviks and the reactionaries will probably regard as acceptable," he added.

**NEW YORK**—The S.S. George Washington, will sail from this for Brest, France, on Friday, April 11, instead of April 14, as she was originally scheduled and will remain in France to wait the President's return to America.

**SACRAMENTO, CAL.**—The Senate was asked today by Secretary of State Ladd, who is in Paris, not to introduce or press at present time the proposed Japanese legislation. "It would be particularly unfortunate to have these bills introduced or pressed," the message read.

**PARIS**—The prospects for peace continue better. A new pace in the deliberations of the council has been set. Several important questions including responsibility for the war and reparations have been disposed of finally.

## RED CROSS

A committee has been busy at the Red Cross rooms the past weeks cutting refugee garments from material on hand. These garments consist of simply made girls' petticoats and children's shirts and they will be ready for distribution next Tuesday. Any one who can possibly help to make these garments at home, please call at the city hall Tuesdays or Fridays from 2 to 4.

While the pajama orders which the local Red Cross must finish as soon as possible is nearing completion, there are ten convalescent robes to be made at the sewing room and a great many refugee garments. A number of faithful workers are doing their best to finish up all this work by June, but more helpers are needed. There are five machines on hand and work enough for all.

During the month of March the Wrangell Red Cross shipped: 15 sweaters and 10 pairs of socks, 33 handkerchiefs made by the juniors, 60 chemises and 90 boys' shirts.

Wrangell was unable to get the amount of old clothing for the refugees assigned as her share, but the town was thoroughly canvassed and the people responded generously. It is safe to say that a better lot of old clothes could not be gathered anywhere. There were many heavy men's and women's coats and suits, large amounts of children's clothing and two sacks of shoes. Two merchants donated knit goods, coats, waists and women's house dresses from their stocks.

The thirteen sacks of clothing and two sacks of shoes weighed 587 pounds. Wrangell was asked for a ton, but having exceeded her allotment last fall by nearly 500 pounds, the committee feels gratified that even this much could be secured.

On Wednesday morning a cable arrived from the Northwestern Division congratulating the committee on the success of the old clothes drive and asking that any addition of clothing which may be collected be sent.

The Ripley Fish company shipped 8 boxes of halibut on the Jefferson Sunday night.

## WARRENS GO EAST

Mr. and Mrs. W. H. Warren will leave on the Princess Mary tonight for the State of Michigan where they will visit with relatives, after which they expect to visit several other States.

Mr. Warren is vice president of the Bank of Alaska and has had charge of that institution since its establishment in Wrangell three years ago. He has worked hard and is leaving on an extended and well deserved vacation.

When the recent election was approaching Mr. Warren was strongly urged to accept the nomination for mayor. Owing to his expected absence from the city he deemed it best to decline, much to the disappointment of his numerous friends, for there is no one in Wrangell who has been more active in the business and civic life of the community, and who could have filled the office of mayor more successfully than he.

On Tuesday evening when Mr. Warren tendered his resignation as sashem of the Redmen's lodge he was presented with a beautiful Alaska nugget fob, as a slight token of appreciation from those who know him best.

Mrs. Warren is active in the social and church life of the community. She has a beautiful voice which has been greatly in demand on public occasions.

Both Mr. and Mrs. Warren have a host of friends here, and they could not leave Wrangell for even a short time without being missed. Their return would be welcomed as sincerely as their departure is regretted.

T. W. Upshaw arrived from Seattle on the Princess Mary Tuesday. He was recently connected with the Seattle National Bank, and came north to relieve Mr. Warren in the Bank of Alaska. Mrs. Upshaw will arrive later.

In a letter to the publisher of the Sentinel Lars Horgheim states that he came as far as Seattle on his way home, but upon his arrival there found that he would be unable to obtain passage to Wrangell before April 15. Mr. Horgheim's letter was dated April 3.

A. W. Crawford who is now located at Petersburg has recently purchased a nice home and is already making preparations for a garden. His quarters are rather commodious to be occupied by one person only.

The following passengers for Point Warde arrived from the States on the last trip of the Jefferson: F. E. Hanthorn, F. E. Barlow, W. N. Brown, Robert Ayers and wife, E. D. Jean, E. S. Paul and wife, S. M. Wilenchek.

Rev. J. S. Clark, pastor of the local Presbyterian church, and Rev. E. E. Bromley of Klawock left on the Jefferson Thursday for Juneau to attend the Presbytery.

Dr. Brown reports an 11½ pound baby girl born to Mr. and Mrs. Otto Klose on Thursday night. That Wrangell's population is steadily increasing is shown by the fact that this is the eighth baby born in Wrangell in the last three months.

Mrs. Jacob Johnson who had been in Wrangell visiting her daughter, Mrs. Clarence Lawrence, returned home to Petersburg on the Jefferson last Thursday. Mrs. Lawrence accompanied her mother home, and will visit in Petersburg for several weeks.

## SCHOOL ENTERTAINMENT

Wrangell was again proud of her local talent when on last Tuesday evening a musical program was given at Redmen's hall for the benefit of the school.

Every number was a decided success and was thoroughly appreciated by the audience.

Following a splendid duet by Liberty and Homer Worden, eight little ones from Miss O'Connor's room dressed in Colonial costume danced the Virginia reel and a minuet. No matter how excellent the rest of a program may be, the numbers by the little tots are always the most enjoyed, although the six children of the third grade who followed the little Colonials came through with flying colors in a group of three charming songs.

Louise Miller delighted every one with her piano solo. While this was her first appearance here Wrangell does not intend to let it be her last.

Pleasing vocal solos were given by Mesdames Johnson, McLaughlin and Warren, which were interspersed by a recitation by John Grant, a humorous reading by George Gunderson containing joking references to various pretty girl schoolmates.

The program was concluded by a chorus of the upper grade and high school boys, following which the audience arose as one person to patronize the table where the High School girls had home made candy for sale. The demand for candy far exceeded the supply but at that the sum of \$19.46 was realized. The door receipts being \$43.65 the entire proceeds amounted to \$63.10 which sum will be used to buy pictures and reference books for the school.

J. R. Bender left for Seattle on the Jefferson Sunday night.

J. F. Cox and L. Sullivan took passage to Ketchikan on the Jefferson Sunday night.

FOUND—Lady's breast pin in Redmen's hall on night of masquerade. Owner may reclaim same by calling at Sentinel office.

C. M. Coulter shipped thirteen boxes of fish to Seattle on the Jefferson.

Mrs. F. A. Cloudy, Miss Charlotte and Francis Cloudy arrived in Wrangell on the Glenora. They are en route to the States.

G. S. Chapin of the Karheen Packing company arrived from the South on the City of Seattle last night.

Miss Woods leaves tonight on the Princess Mary on an extended vacation to her old home in McMinnville, Oregon.

B. Y. Grant was initiated into the Redmen's lodge Tuesday night.

Albert Thompson and W. L. Ahlskog of Burnet Inlet are in Wrangell this week.

Miss Edna Starkloff arrived from Seattle on the City of Seattle last night.

A. V. Johnson and C. V. Boone were in town from Lake Bay the first of the week.

The Ripley Fish company shipped 104 boxes of fish south on the City of Seattle. The Glacier Fish company shipped 44 boxes on the same boat.—Petersburg Report.

Mrs. McLaughlin will sing the "Palms" next Sunday evening, April 13 at St. Philip's Church.

A party of Wrangellites made a trip to Petersburg Sunday on the cannery tender, Alasco. In the party were Mr. and Mrs. Fred Wigg, Capt. and Mrs. Fowler, Miss Florence Billon, H. J. Palmer and Louis Scribner.

## MR. AND MRS. WORDEN BECOME GRANDPARENTS

Mrs. Robert Anthony Holmes, nee Miss Lynn Worden, is Mother of 8½ Daughter Born in Grand Rapids, Michigan

[Cablegram]  
Grand Rapids, Mich.,  
April 3, 1919.  
Mrs. J. E. Worden,  
Wrangell, Alaska.  
Dear Grandma:  
I arrived at 5:30 this morning. Weigh 8½ pounds. Mama is fine.  
Lovingly,  
Patricia Ann Holmes.

The above cablegram was received last Thursday and was certainly a charming way of announcing the happiness that had come to the home of Mr. and Mrs. Holmes at Grand Rapids.

Mrs. Holmes, as Miss Lynn Worden, grew to womanhood in Wrangell, where she was most beloved as a sweet, good girl. She possessed strong literary talent which has brought her recognition in many ways.

The best wish Mrs. Holmes' host of friends can extend to little Patty Ann is that she will grow up to be just like her mother. Congratulations, Mr. and Mrs. Holmes—and also congratulations to you, little Patty Ann, that you have shown such discrimination and good taste in selecting your parents.

## AN EIGHT-POUND BOY

Born to Mr. and Mrs. Hill Barrington at San de Fuca

(Skagway Alaskan)

Mrs. M. J. Hayward received a cablegram today announcing that her daughter, Mrs. W. Hill Barrington, had given birth to an eight pound baby boy at twenty-three this morning. The happy event occurred at San de Fuca, on Whidbey Island, the present home of Capt. and Mrs. Hill Barrington. The message stated that mother and son were doing well.

Major Robert Brass who has been stationed at Camp Lewis, was in Wrangell this week in company with Ed Lyons. Major Brass came north on the Jefferson for a vacation. He is a friend of Lieut. Hardin who was formerly stationed in Wrangell, and who was the first American soldier wounded in the war with Germany.

Seven men arrived on the Princess Mary Tuesday morning who were en route to Token where they will be employed by the Vermont Marble company. They all came from Tacoma. A few weeks ago 15 men passed through Wrangell en route to Token to work for the same company.

Senator J. R. Heckman was aboard the Jefferson Sunday en route to Ketchikan. Mr. Heckman is one of the directors in the Ketchikan sawmill. When the employees of the mill went on a strike Mr. Heckman obtained a five days' leave of absence from the Senate in order to go to Ketchikan and straighten out the matter if possible.

The picnic season opened the first of the week when a party of young people on last Sunday strolled up the beach as far as the dog-fish totem where they built a campfire and had dinner.

## SHOTRIDGE GOES EAST

L. Shotridge and bride were aboard the Jefferson which was in port Sunday evening. They were en route to the east via Palm Beach, Florida. Mr. Shotridge is an Indian ethnologist. He is connected with the University of Pennsylvania, of which he is a graduate. He is the only ethnologist specializing on the Thlingets. For the past four years he has been doing research work in Alaska and British Columbia. He is writing a book on the Thlingets which will be a most valuable contribution to ethnological literature. Mr. Shotridge early in life decided upon the law as a vocation. After graduating from the law department of the University of Pennsylvania he was strongly urged to assist in some ethnological research work. The work appeared so important to him that after a time he decided to make ethnology his life's work. He then entered Columbia University where he took linguistics for three years to better prepare him for his work.

While carrying on his research work in Alaska and British Columbia Mr. Shotridge has made a remarkably fine collection of ethnological specimens which have been placed on exhibition in the University of Pennsylvania museum. In the collection is a vast amount of ceremonial material which was for the most part made a century or two ago. There is a collection of poles or sacred standards used in ceremonial dances, handsomely carved and decorated with the totem of the bearer. There are some amazingly lurid masks which were used in the dances, and some costumes which are richly decorated. Some are made of buckskin, while others are of Hudson's bay traders' cloth elaborately embroidered. Altogether Mr. Shotridge has sent about 1,000 specimens and these are often unique and as a whole are unequalled.

Mr. Shotridge was recently married to Miss Estella Cook, a Native girl of Sitka, who is 18 years his junior.

F. R. Sterling of the Barrington Transportation company, arrived from Seattle on the Princess Mary Tuesday forenoon.

Mrs. Belle Borch arrived from San Francisco on the Princess Mary Tuesday.

Ed Grigwire's dandruff treatment is the best on the market. Try it and be convinced.

W. F. Reichwein, manager of the Hood Bay Packing company, was aboard the Jefferson Sunday night. He was en route to the States on a short business trip.

The following passengers for Lake Bay arrived from the States on the last trip of the Jefferson: Mr. and Mrs. L. D. Moran, Mr. and Mrs. Al Simmons, F. E. Furnish, W. F. Loveless, O. Bakke.

Albert Flack who has been in Wrangell the past few weeks will leave for Point Warde next week.

Mrs. Robert Ayers, wife of the assistant machinist at Point Warde, was a visitor to Wrangell Monday.

Supt. F. E. Barlow of the Point Warde Packing company was in Wrangell Monday. He came in on the cannery tender, Frank H. Madden.

Nick Nussbaumer is now stationed at Pontenx les-Forges (Landes) France, with 12th company 20th Engineers. He writes that he is in fair health, but homesick.

I. C. Bjorge, Wrangell's live wire transfer man, has added another auto truck to his business. The new truck is a one ton Ford.

## Archdeacon Stuck Honored

LONDON — The Royal Geographical Society has awarded the Back Grant to Archdeacon Hudson Stuck of the Yukon in recognition of his travels in Alaska and his ascent of Mount McKinley in 1913.

The Back Grant is an annual donation made by the Royal Geographical Society. It owes its name to Sir George Back, who explored parts of Northern Canada about 1830.

### HIS SENSIBLE QUESTION.

"Mamma—"  
"Now, sonnie, don't ask me any more foolish questions."  
"I just want to ask one little, teeny question, mamma."  
"Well, you may ask it if it is a sensible one, but I am tired of the silly ones you generally ask."  
"Well, mamma, is papa your husband?"  
"I don't call that a sensible question. You ought to know that without asking. Of course he is."  
"Well, mamma, I know, but I just wanted to ask a really sensible question. If papa should die and go to heaven, what relation would you be to God?"

### A Phenomenon.

Mr. Braggleday had once been on a tour to Egypt and couldn't forget it. Everything reminded him of something else that took place on that memorable trip. His friend Johnson was admiring a beautiful sunset one evening.  
"Ah," said Braggleday, "you should just see the sunset in the East."  
"I should like to," said Johnson.  
"The sun always sets in the west in this ordinary old country."

## FIFTH LIBERTY LOAN

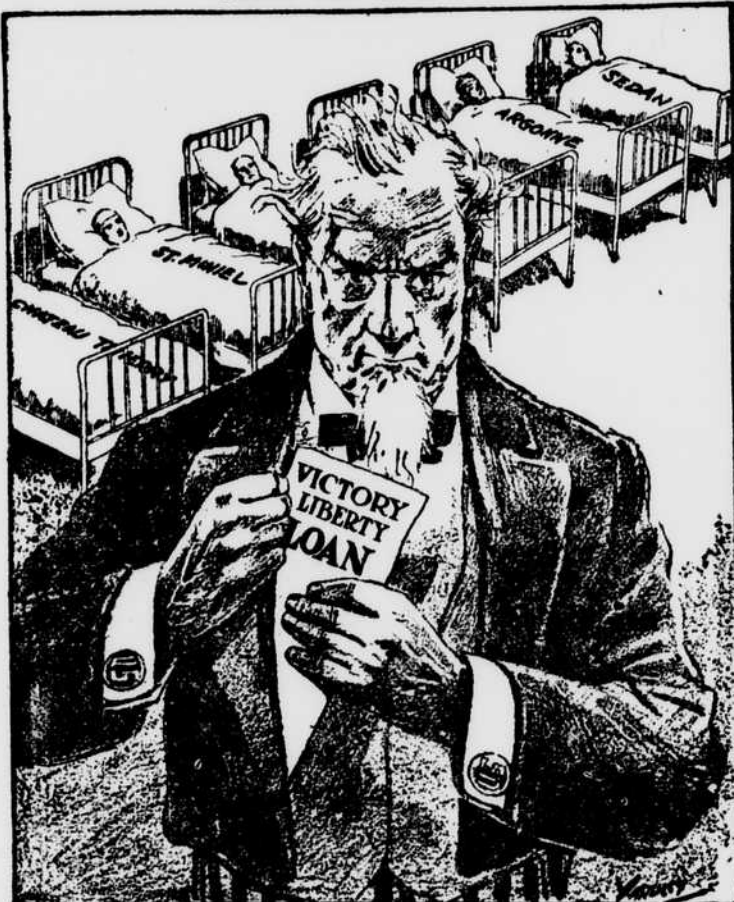

Opens April 21 and Closes  
May 10

SAN FRANCISCO—The Victory Liberty Loan campaign opens April 21 and closes May 10. Treasury circular will be numbered 13 and dated April 21. The issue will consist of notes of the same denomination of previous bonds but not for over five years duration, instead of longer terms bonds. Notes date May 20 and payments of 10 per cent with application on or before May 10 and 10 per cent July 15, and 20 per cent each August 12, September 9, October 7 and November 11 with accrued interest on deferred payments. Payment in full permitted May 20 if 10 per cent with application is paid by May 10. Payment can also be completed on any installment date with accrued interest.

Full particulars will be announced by the Treasury this week and we will wire your local bank upon receipt here. We hope to be favored with Wrangell's active and highly valued cooperation.

Lynch, Governor.

## Religion, Withstanding Cynicism, Has Sur- vived Through the Ages. Go to Church.

A GREAT number of the people who GO TO CHURCH are men and women with the WISDOM OF YEARS AND EXPERIENCE. Many young people who seem to REJOICE WHEN THEY ARE CALLED CYNICS not only fail to GO TO CHURCH, but flippantly refer to the movement.

One great writer said, "WHO ARE A LITTLE WISE THE BEST FOOLS BE." Another said, "A LITTLE LEARNING IS A DANGEROUS THING." Churches have survived through the ages. One hates to think what would become of this world without churches and religion. The churches TEACH RIGHT-EOUSNESS. And yet there are some young people who are disposed to take lightly this splendid GO TO CHURCH movement.

Happily they are in the great minority, and it is certain that they will soon be moved by the AWAKENING OF RELIGION over the land. In many churches in the west preachers report a SPLENDID ATTENDANCE OF YOUNG PEOPLE.

THE DAY IS GONE WHEN IT CAN BE SAID THAT THE CHURCH IS ALL RIGHT FOR OLD WOMEN AND CHILDREN. GO TO ANY OF THE GREAT CITIES IN THE COUNTRY AND NOTE THE REAL BIG MEN, THE MEN YOU'D LIKE TO KNOW, AT DIVINE SERVICE. THEY ARE PROUD TO BE SEEN IN CHURCH. NO, INDEED, THE CHURCH IS NOT FOR THE OLD AND THE WEAK. IT IS FOR THE YOUNG AND STRONG. IT IS FOR EVERYBODY, FROM THE HIGHEST TO THE LOWEST. PRESIDENT WILSON HAS EMPHATICALLY GIVEN HIS APPROVAL TO THE GO TO CHURCH MOVEMENT.

If you are one of the young men who has been reached by the GO TO CHURCH appeal and now regularly attend church, you are to be commended. But you can do more. You can induce that friend of yours who is inclined to cynicism to join the GO TO CHURCH throng. Argue with him. Plead with him. Show him the right way. If you do this, you'll be doubly rewarded.

Get him to GO TO CHURCH next Sunday.

Get him to GO EVERY SUNDAY.

## Preparations for Salmon Season

(Pacific Fisherman)

Arrangements have just recently been completed for the consolidation of the Petersburg Packing company and the Washington Bay Packing company under the firm name of the Petersburg Packing Corporation. E. Schoenwald is the president, L. G. Pattullo, vice president, Frank J. Speckert, secretary treasurer of the new corporation.

One of the most notable additions to the salmon canning capacity of Southeastern Alaska is the Port Walter plant of the Alaska Herring and Sardine company, now owned by the Wilson Fisheries company, which was completely rebuilt last summer, too late for the canning season, and is practically a new plant. The main building is 80 by 368 feet, two full stories and loft, and the equipment includes five lines of salmon canning machinery and three lines for herring, with two complete lines of American can company can-making machinery. The plant also includes a by-products outfit made by the California Press Manufacturing company.

The Golden Shore Canning company, which was formerly known as the Alaska Clam Canning company, and which operated a clam cannery at Scow Bay has again been reorganized and is now known as the Mountain Point Packing company, with headquarters in Seattle. A complete one line salmon outfit is being installed, including a Nicholson sliker, Troyer Fox tall filler, double seamer and two retorts and a Smith and Wright exhaust box. Recently six cottages and houses were erected to care for the help employed at the plant.

The Hood Bay Packing company is engaged in installing a full one-line equipment at their plant.

The Alaska Sanitary Packing company, who last year built a cannery at Cape Fanshaw, but too late for the canning season, is making active preparations to put in a full pack this year.

The Marathon Fishing and Packing company is busy installing a complete two line plant at Cape Fanshaw. The warehouses, docks and buildings are almost complete and the plant will be ready for operation when the fish start running. The barge Amelia, which was operated as a cannery last year by them is being offered for sale.

It is reported that the floating cannery Glory of the Seas, owned by the Glacier Fish company will be stationed at Scow Bay during the coming season.

Earl Hunter and William Dickenson of Juneau, who operated a small hand cannery at Washington Bay last season, have incorporated as the Hunter and Dickenson company and are building a substantial one-line cannery there.

Henry Roden, head of the Republic Fisheries company, is planning to continue the construction of his cannery at Saginaw Bay, but does not expect to be ready for canning before the season of 1920. During the coming season the salting operations will be extended and the wharf and warehouse will be enlarged.

C. C. Harris will be the superintendent of the Big Port Walter plant of the Alaska Pacific Herring company and concern is making preparations for 50,000 cases this season.

The Pybus Bay Fish and Packing company, which built a salmon and herring cannery at Pybus Bay last year, will add 100 feet to its warehouse, making it 40 by 210 feet, the same as the cannery. A second line of canning machinery for 1-pound talls was installed last fall, and both lines will be used for salmon exclusively. The equipment for oval herring cans will not be put in this year. The first of the crew went up March 4th.

The Alaska Packing and Navigation company has made various improvements in its Pavlov Harbor plant, adding a new warehouse and setting up more of the machinery purchased from the Ocean Food Packing company, so that it will have a complete two-line plant. H. E. Springer, president of the company, will act as superintendent this year, and will start the first crew north this month.

Martin Kildall and Henry Roden have leased their two traps and sites, including their boats, to the Petersburg Packing Corporation for the coming season.

George Van Vlack, administrator for the estate of H. Van Vlack, of H. Van Vlack and company who established a shrimp cannery at Petersburg last year, announces that he will continue operations there, and it is expected that some salmon will be canned.

Mr. Van Vlack is planning to close the Olympia plant of the concern and will center his operations at Petersburg, according to a recent announcement.

Arrangements for supplying the canneries of southeastern Alaska with lubricating oils and greases, Red Crown gasoline, engine distillate and Pearl oil have been perfected by John McLean, district sales manager at Seattle for the Standard Oil company of California according to J. D. Helps, Alaskan Manager who was in Petersburg recently.

The routes covered in former years by the tank steamship "George Loomis" will be visited during the season of 1919 by the tanker "Petroleum II," which will use the substations of Juneau and Ketchikan as her supply bases. These supply bases in turn will be taken care of by coastwise tankers from California.

Alaskans will be glad to learn that the popular Captain Scott and Special Agent E. J. McClanahan, who were formerly in charge of the steamer "George Loomis" will perform the same duties on the "Petroleum II."

The tanker will leave Seattle the latter part of April scheduled to leave from Juneau on her first cannery trip May 1st.

Jacob Johnson, who last season put up a pack of salt herring on a floating plant near Port Conclusion, Chatham Strait, has just returned to Alaska, after spending the winter in the East, where he visited the principal salt fish markets to study the requirements of the trade. He is preparing to put in a new wharf and shore salting station near his former location, and intends to make a good sized pack of Scotch cured herring, taking particular pains to put up a saleable article.

T. E. P. Keegan, the local canneryman who operated a salmon cannery here in the old George E. James sawmill, has decided that he will not attempt to put up a pack this season. He gives as his reasons uncertain condition of the salmon market, the war-time prices for supplies, together with the increase in freight rates between Seattle and Alaska points, and with more stringent government regulations to be enforced.—Douglas Island News.

## FAREWELL PARTY FOR THE WARRENS

That sound of revelry on Church Street last Saturday night was merely the picnic crowd having a farewell merrymaking at the home of Messrs. Wickstrom and Jakobitz in honor of Mr. and Mrs. Warren.

The usual picnic supper was served and the usual appreciation shown of the good things loading the table, which extended from the fireplace at the end of the dining room to the end of the living room.

After supper the floors were cleared and dancing was indulged in until an early hour. A rummy game was started by those most addicted to the habit, but even the rummy enthusiasts finally put away their cards and joined in the dancing. So the reader will know it was some dance.

During the evening a business session was held during which it was decided that this picnic crowd should hereafter be known as the Fido Club, and amid impressive ceremonies conducted by Leo McCormack, the club was formally christened, Miss Ann O'Connor being its god-mother and Ole Johnson the god-father.

While it was an evening of fun that the club members will ever be glad to remember, it was nothing compared to the celebration that would be given if it should ever be their good fortune to meet in honor of the Warrens' returning to Wrangell.

### Robert Hyland Returns (Skagway Alaskan)

R. Hyland of Telegraph Creek, returned on the Mary from a trip to the States. Mr. Hyland left on this morning's train for Carcross and will continue on to his home in the Atlin district.

Roy Murphy arrived Sunday from Petersburg.

John W. Stedman, Postmaster.

## BLOOD POISONING

**Hamlin's Wizard Oil a Safe First Aid Treatment**  
How often lockjaw and blood poisoning result from the neglect of a slight scratch or little cut! Hamlin's Wizard Oil is a safe and effective first aid treatment. It is a powerful antiseptic and should be applied immediately to wounds of this kind to prevent danger of infection. It is soothing and healing and quickly drives out pain and inflammation in cases of sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for stiff neck, sore feet, cold sores, canker sores, earache and toothache.  
Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.  
Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents. Guaranteed.

## U. S. Customs House Issuing Numbers to Alaska Vessels

The Customs House is now issuing numbers to vessels under five tons. The vessels which must be numbered under the Act which recently went into effect are:

All vessels propelled in whole or in part by machinery, owned in the United States and found on navigable waters thereof, except the following:

- (a) Vessels registered, enrolled or licensed in the Customs House;
- (b) Public vessels;
- (c) Vessels not exceeding 16 feet in length, measured from end to end over the deck, excluding sheer, temporarily equipped with detachable motors.

In the case of vessels having power tenders, the tenders will carry the same number as the parent boat and the cards will describe only the parent boat stating the number of power tenders.

In the case of documented boats having power tenders, the tenders will be described and a separate number given to each.

Applications for numbers may be made to the Customs House by mail. It is not necessary for boats to be brought to port.

## A BANK ACCOUNT IS A BUSINESS ASSET ---

It simplifies your accounting. Your returned and endorsed check gives you a legal receipt for your payment of an account.

BUSINESS AND PERSONAL ACCOUNTS SOLICITED

### Brought News of Harry Eastman

Fred E. Enevoldsen, an officer of the Canadian army was aboard the Princess Mary Tuesday morning en route to Dawson. Mr. Enevoldsen was a pal of Harry Eastman in France. He says he was standing less than six feet from Eastman when he (Enevoldsen) was wounded. Eastman has received his discharge and is probably now on his way to Alaska. Mr. Enevoldsen was prospecting in the Pelly river district when he responded to the call of his country and enlisted voluntarily, he being too old to be drafted.

C. R. Arundell, chief of the Alaska Field Division of the General Land Office, trustee for the Wrangell townsite, returned to Juneau on the City of Seattle this morning. Before leaving Mr. Arundell stated that with one or two exceptions he had issued deeds in all cases, except in those instances where deeds had been issued by Former Townsite Trustee Inman. He also stated that he expected to return in two or three weeks at which time he would be prepared to issue deeds for the balance of the lots.

The delay in issuing deeds in those cases where deeds are already issued by Inman has been due to the delay in obtaining the necessary data from the General Land office which is expected shortly.

Charlie Olson who is fur trapping up the Stikine came down Friday and spent a couple of days with his family. Mr. Olson reports that he is finding trapping very good on the lower Stikine.

Have your watch repaired at George Cowan's, in the Uhler Block.

For the shave and haircut of satisfaction go to Ed Grigwire's shop, opposite drug store.

More than a dozen Wrangellites were in Petersburg last Sunday. At noon there was a Wrangell reunion at which ten people from Wrangell dined together.

Dr. C. H. Upton was aboard the Jefferson last Thursday en route to Petersburg where he has located.

J. R. Bender will open a store in Petersburg in the near future.

Mrs. J. H. Wheeler and little daughter, Lois, returned Sunday from a few days' visit with Mr. Wheeler in Petersburg.

Capt. Knig Johansen was a visitor to Petersburg Sunday.

Mrs. Mamie Fletcher arrived home from the Outside on the Jefferson last week.

James Wickersham was aboard the Jefferson which called at this port Sunday evening. He was en route to Seattle. He stated that he expected to return to Juneau in two or three weeks.

### LIVES OF REAL CRIMINALS

Author Has Shown Up Careers of  
Enemies of Society Without the  
Glamor of Fiction.

Fictitious criminals are very familiar, but in "A Book of Remarkable Criminals," H. B. Irving, an English writer, depicts with skill the lives of real criminals. Criminologists will find material for significant comparison in the varied careers of these criminals and the average reader can hardly fail to be interested.

The annals of crime in England, France and America have been searched for interesting cases.

The American reader will, however, find but two familiar names; one of these is Holmes, whose celebrated "castle" in Chicago is still remembered, says the Springfield (Mass.) Republican. Another American of an entirely different type is Professor Webster of Harvard university. Perhaps the most remarkable case is that of Charles Price, the Englishman, who evidently was born with criminal instincts.

A majority of the crimes related appear to have been instigated by necessity, the perpetrators being forced to greater crimes in an endeavor to conceal lesser ones.

### A RELIEF

Wayne—So you think you would like to make a journey to the North pole?

Payne—Yes, I think I would. It must be restful to get to some place where nobody cares whether the snow is cleaned off or not.

### THEY LIKED CANARIES.

Mike Schwartz and his wife are epicureans of the first order. Mike, while delivering some goods, noticed a fine Roller canary in the home of Paul Kajpust. Said Mike: "My wife and I like canaries. I'll bring you a load of wood for him." Mrs. Kajpust turned over the canary and waited several weeks for the wood. None came. She summoned Mike before Judge Cummings to recover the bird.

"What was the canary worth?" asked the court of Mrs. Kajpust.

"Fifteen dollars. He was a fine bird," she answered.

"Where is the bird now?" Mike was asked.

"Oh, we ate him. We like canaries."

The court awarded \$10 damages to Mrs. Kajpust.—Milwaukee Journal.

Not the least of the horrors of war from which many men have been spared is the filling out of a questionnaire.

### ADAPTED TO ITS PURPOSE

Hebrides Abode Must Not Be Condemned Because It Is, According to Most Views, Unsanitary.

Houses with neither windows or chimneys are being lived in by the people of the Scottish islands, the Hebrides. The peat fire is kept burning day and night, and is, in spite of the smoke, the savior of the household; the straw roof does not keep out the rain, and thus almost necessitates "box-beds;" there is often more than propinquity of the cows and their manure. The "black houses" are, of course, deplorable and deteriorative; but that is not their scientific description. The fact is that, in point after point, these "black houses" are like organisms built up under difficult conditions, meagerly perhaps, but with remarkable adaptiveness. The stones are from the moor; timber is from the sea; lime mortar is expensive; the roof must be molded every year and therefore the walls must be low; moreover, the gales are high. At every point the house is adapted to its fundamental purposes, and what the doctrinaire student or the careless visitor dismisses as unworthy of savages, the product of laziness or perversity, turns out to be a product of long labor and sacrifice, a fundamental part of the only system of agriculture formerly found possible in this island of gneiss rock, clay and peat moss.

### WOOD PULP FIBER PUZZLES

Recent German Invention Is Acknowledged of Value, but Rivals Have Not Fathomed Its Production.

There has been much discussion in the German press during recent weeks concerning a wood pulp fiber named "Cellulose," for which large claims are made as an efficient substitute for jute, cotton and other fibers, says the English Board of Trade Journal.

It appears to be certain that the fiber is not made by spinning long strips of paper run off reels through water in the manner which German paper textile substitutes have made familiar. The accounts agree in describing the process, or processes, as a direct manufacture from wood pulp.

The British consul general at Zurich, who has presented a report to the foreign office, states that the method employed operates on the same general lines as that used for artificial silk manufacture—that is, by squeezing under high pressure through small holes in plates.

History will record that through all the war there was one neutral who knew neither friend nor foe—the cootie.

Europe ought to have the janitor sweep up those discarded crowns and send them to be melted into something useful.

It does not seem to have occurred to anybody that returned soldiers may have their own ideas about what they wish to do.

One of the pressing peace problems for the soldiers who will return will be keeping the crease in their civilian trousers again.

The war industries board has removed the shoe price maximum. This will be news to consumers who never knew it was on.

### WE'LL HAVE TO EXCUSE HIM.

"Say," said the man with the constant frown, "that guy I was just talking to has more nerve than anybody I ever saw. The impudent fellow had the audacity to ask me all the details of my personal affairs."

"Well, old chap, you'll have to overlook that trait. He'll get over it. You see he's been connected with a draft board, helping registrants to fill out their questionnaires."

### RELIEF AT LAST.

Chronic Ailer—Our old family doctor went to war and I had to try another one.

Friend—Did he relieve you?  
Chronic Ailer—Well I should say he did. He relieved me of \$25 the first crack out of the box.

### FORGIVENESS.

"Of course, you want to forgive your enemies."

"Yes," replied Miss Cayenne; "but having to forgive the same enemy over and over again does grow a little monotonous."

### CHANGE OF MENU.

Dinner (just entered)—Hallo, Jim! Anything new on the bill of fare today?

The other—There's a grease spot I didn't notice there yesterday.—Boston Evening Transcript.

### LUCKY MAN.

C. R. H. writes back from a training camp where he arrived last week that he has been equipped with shoes weighing not less than twenty-five pounds apiece. He presumes from that that he has been selected to kick the kaiser.—Kansas City Star.

### SOME GRINDISTS.

Kwoter—The mills of the gods grind slowly, you know.

Piker—Yep; they're probably proceeding with caution so as not to run afoul of any of the food regulations.

### OVERDOING IT.

Maisie—After Jack proposed I told him to see papa.

Daisy—What happened?

Maisie—Why, they started to play cards and now he goes to see papa every night.

### ROUGH STUFF.

Fashion Editor, the Star—Can you suggest something cool to slip on these hot mornings? Signed, Prostrated.

"Why, sure, Prossie—a piece of ice is just the thing."

A New York man claims to have invented a golf ball that goes further and faster than the old ones. What we're looking for is a golf ball that will go where we want it to go when we hit it.

Pessimists who fear after-war conditions should bear in mind that it is pretty hard to ruin a country that does not owe anybody and produces as many billions of wealth each year as Uncle Sam turns out.

New Jersey reports the scientific discovery that insanity is sometimes caused by unsound teeth. This may account for the fact that the ex-kaiser used to keep an American dentist on the job all the time.
